MARKED UP ABSTRACT**In The Abstract:**

Kindly replace the abstract with the following paragraph.

The present invention relates to a metal profile (1) for a vehicle body section. The profile includes side walls (10a, 10b), a base plate (8) and two support walls (2a, 2b). The walls (2a, 2b, 10a, 10b) and a base plate (8) constitute [constituting] a sectional area with at least three hollow sections (6a, 6b, 7). The base plate (8) and support walls (2a, 2b) constitute an internal section (7), of the metal profile with a substantially triangular sectional area. The internal triangular section (7) have [having] substantially three corners (9, 11, 12). The invention also relates to a body section and a vehicle that includes the metal profile.
